Be safe	Please read the safety guide for important safety, charging, battery and regulatory information before using your new headset.

Pair

Pair to mobile device

BackBeat PRO and BackBeat PRO+ pair differently the first time.

- 1 **For BackBeat PRO** The first time you power on your headphones, the pairing process begins. Holding your headphones, slide the power switch to the ON position. The LEDs flash red and blue.

- 2 **For BackBeat PRO+** Power on your headphones, then press and hold the Call ☎ button until the LEDs flash red and blue.
- 3 Activate Bluetooth® on your phone and set it to search for new devices.
 - **iPhone Settings > Bluetooth > On***
 - **Android Settings > Bluetooth: On > Scan for devices***

NOTE *Menus may vary by device.
- 4 Select "PLT_BBTPRO." Once successfully paired, you hear "pairing successful" and the headphone LEDs stop flashing.

NFC pairing (Android)

- 1 Ensure NFC is on and your phone's display is unlocked. (Phones may vary.)
- 2 Tap and hold the headphones to the phone's NFC tag location until NFC pairing completes. If necessary, accept the connection.

NOTE The headphone's NFC tag is located on the outside of the left ear cup. (Phone tag locations vary.)

Plug and play

BackBeat PRO+ only The high-fidelity Bluetooth USB adapter comes pre-paired to your headphones so you can listen music and make calls on your computer.

- 1 With your headphones powered on, insert the USB adapter into your laptop or PC. Pairing is successful when you hear "pairing successful" and the USB adapter is solid blue.

- 2 Go to sound preferences and select "BT600" as the default device to configure your adapter to play music.

Pair USB adapter again

- 1 Insert the high-fidelity Bluetooth USB adapter into your laptop or computer and wait for your computer to recognize it.
- 2 Put your headphones in pair mode.
- 3 Put your USB adapter into pair mode by gently pressing and holding the recessed Pair button until the USB adapter flashes red and blue.

Pairing is successful when you hear "pairing successful" and the USB adapter LED is solid blue.

- Pair second device
- 1 Press and hold the Call ☎ button until the LEDs flash red and blue.
 - 2 Activate Bluetooth on your second device and follow the last two steps of "Pair to mobile device."

Charge and fit

Charge

It takes up to 3 hours to fully charge your headphones. The LEDs turn off once charging is complete.

TIP To check the headphones battery status, tap the Call button  while wearing your headphones. Headphones must be in idle state.

Your headphones have up to 24 hours of listening time.

Adjust the fit

Adjust the headphones for a comfortable fit.

Lengthen or shorten the band until it fits comfortably. When not using your headphones, fold the ear cushions in and against your body.

More Features

Use sensors

Smart sensors respond when you put on or take off your headphones.

With active sensors

putting on the headset will:

taking off the headset will:

Incoming mobile call

answer the call

Music/media

resume music/media (if playing previous to taking off)*

pause music/media (if playing)*

Mute

unmute if on an active call

mute if on an active call

NOTE *Functionality varies by application. Does not function with web-based apps.

Reset Sensors

You may need to reset the sensors if they are not working as expected.

To reset the headset sensors, connect it directly to your computer's USB port, and place it, with the ear cups up, on a flat, non-metallic surface for more than 10 seconds.

Flexible power

When the battery is exhausted, use your headphones with the provided 3.5 mm cable.

Use the cable to:

- Adjust the volume with the (+) and (–) buttons
- Play/pause music or answer/end a call with the center  button = single tap
- Track forward with the center  button = double tap*
- Track backward with the center  button = triple tap*
- Activate smartphone voice-enabled assistant with the center  button = 3 second press*

NOTE *Specific to BackBeat PRO+

Advanced OpenMic

When listening to music, you will be able to hear your surroundings by activating OpenMic .

To increase or decrease the microphone level, rotate the volume wheel  forward (+) or backward (–). To cancel OpenMic, press the Mic button again.

Customize

Your headphones speak in English. You can change the language and other settings using your PC/Mac, the updating tool, and the provided USB cable.

The updating tool (plantronics.com/myheadset-updater) enables you to:

- Change language
- Receive firmware updates
- Turn "mute off" voice alert on/off
- Turn smart sensors on/off
